LIMITED / NO CELL ON LONG STRETCHES — Rent an Iridium sat phone in Fairbanks before you hit the Haul Road.

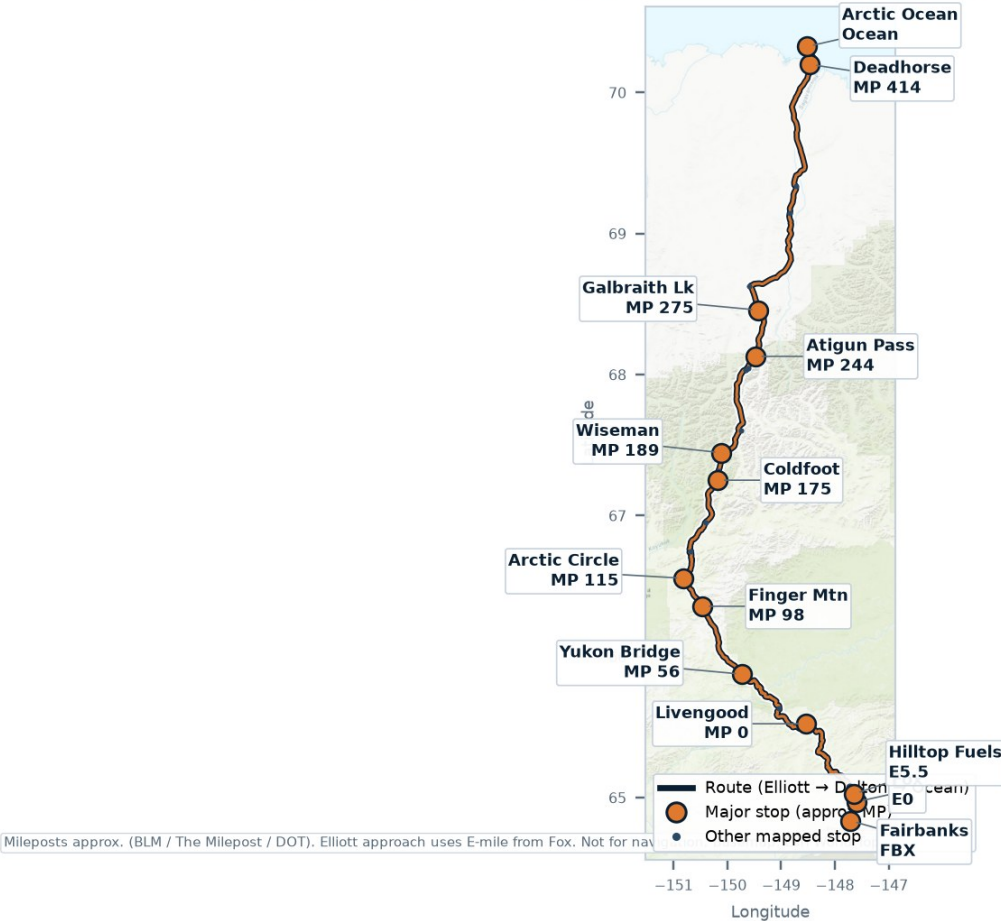

Drive the Haul Road

From Fairbanks take the Steese to Fox, then the Elliott Highway northwest to Livengood, where the Dalton Highway (AK-11) begins — ~414 miles of mostly gravel to Deadhorse / Prudhoe Bay and the Arctic Ocean (authorized tour/shuttle only). Heavy truck traffic, extreme weather, and ~240 miles Coldfoot→Deadhorse with no full services. Carry spare tires, extra fuel, food, water, a CB (Ch 19), and a sat phone.

Seasonal — check before travel: campgrounds, cafes, visitor centers, lodges, and the Arctic Ocean shuttle along the Elliott & Dalton often close or cut hours outside summer. Confirm fuel & lodging first. Ocean access: deadhorsecamp.com/arctic-ocean-shuttle

No cell? Still call home.

Much of the Dalton has little or no mobile service. Rent an Iridium sat phone in Fairbanks — pickup at our shop or free delivery to local hotels. Weekly rates from \$85. Scan the QR above or visit fairbankssatphone.com/reservations. Also: tents, generators, coolers, bear gear.

Emergency contacts on the Dalton

No public EMS facilities along the highway — help can take many hours. Dial 911 only where you have cellular service. Large stretches have little/no cell (AT&T/GCI pockets near Coldfoot & Galbraith per BLM). Carry a CB (Ch 19), sat phone or inReach, spare tires, fuel, food & water.
